

# Courses at Anglian

You will see in the following pages how our well known and accredited diplomas easily lead you to university degrees.

If you satisfactorily pass a Diploma or a Higher Diploma with us, you may be able to join the second or third year of a bachelor's degree programme in many UK universities. While Diplomas may cost you from £1800 to £2400 (UK pounds) per year, the fees for the degree programmes in a university may well be up to £10,000 a year. By joining only the final year at the university, you are likely to save anything up to £15,000 pounds for your further studies. You will save even more if you continue your final year

with us, when suitable courses become available. Please read through our courses pages in this prospectus. After reading the quick snapshots of courses here, please research them in detail on your own. Our course programmes are competitive and boldly designed by highly educated professionals, with industrial standards in mind. Job opportunities and intellectual development will reward you for working hard on our programmes. Choose courses that are suitable for you, and your achievements to date, not just because you would vaguely like to get a particular degree. Our Admissions advisors are always ready to help.

## How do we deliver quality education for affordable fees?
